This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Patent  
Attorney Docket No. BRV.10014

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Inventor(s): Florence MARCIACQ et al.	Mail Stop: Amendment
Application No.: 10/731,857	Group Art Unit: 1623
Filing or 371(c) date: December 9, 2003	Examiner: Patrick T. Lewis
Title: Process for Manufacturing Morpholino-Nucleotides, and Use Thereof for the Analysis of and Labelling of Nucleic Acid Sequences	Confirmation No.: 4238

**RESPONSE TO RESTRICTION REQUIREMENT**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In complete response to the Restriction Requirement mailed October 14, 2005,  
Applicants elect Group I, claims 1-30, with traverse.

The Restriction requirement required restriction to one of the following inventions  
under 35 U.S.C. § 121:

I. Claims 1-30, drawn to a process for manufacturing a nucleic acid fragment,  
classified in class 536, subclass 25.32;

II. Claims 31-38, drawn to a process for manufacturing a morpholino-nucleotide of  
formula (I), classified in class 536, subclass 26.71.

Under the statute, an application may properly be required to be restricted to one of  
two or more claimed inventions only if they are able to support separate patents and they are  
either independent or distinct. However, if the search and examination of an entire  
application can be made without serious burden, the examiner must examine it on the merits,  
even though it includes claims to independent or distinct inventions. *MPEP* § 803.

According to the Restriction Requirement, each of Groups I and II are to be searched  
in only one subclass. The combined subclasses only contain about 750 patents, according to  
the U.S. Patent and Trademark Office website. Therefore, the search and examination of all

the claims could be made without serious burden. In view thereof, Applicants respectfully request that the restriction requirement be withdrawn.

If the restriction requirement is maintained, Applicants reserve the right to file divisional application(s) based on the non-elected claims.

If any questions arise, the Examiner is invited to phone the undersigned at the below listed number.

**Although it is believed that no fee is necessary, the Director is hereby authorized to charge any appropriate fees that may be required by this paper, and to credit any overpayment, to Deposit Account No. 50-3218**

Respectfully submitted,

HUTCHISON & MASON PLLC
